

Tissue Paper Flowers

Materials

- Tissue paper
- Pipe cleaners or craft sticks
- Buttons

Instructions

1. Cut out plenty of circles using different colours of tissue paper—the circles can be different sizes and have smooth, jagged, or curvy edges
2. Thread a short piece of pipe cleaner through the holes of 1 or more buttons
3. Thread the circles onto the pipe cleaner from smallest to biggest so the button becomes the centre of the flower—offset the layers to add texture
4. Make a stem using pipe cleaners or crafts sticks and secure in place
